

# Greenhouse gas benchmarking of oil and gas companies

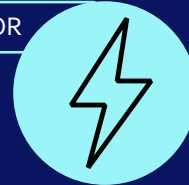

SERVICE

Strategy & Innovation

SECTOR

Energy

REGION

North America

## CHALLENGE

- Wanted to understand its own climate position compared to its peers so it could outperform the group
- Needed to assess the targets, plans, actions and performance of other companies to help set its own goals

## ACTIONS

- Identified comparator companies and reviewed their annual reports, climate plans and carbon disclosure reports
- Developed an assessment framework and ranked companies by key metrics
- Recommended actions to outperform the company's peer group
- Advised on how to sequence actions to achieve goals cost-effectively

## RESULT

- Company used the results to feed into their greenhouse gas mitigation strategy
- The tools were used to help prioritise investments in high-impact energy saving equipment
